## REASONS FOR ALLOWANCE

Receipt is acknowledged of an amendment filed on 01/25/2002

### Information Disclosure Statement

Receipt is acknowledged of IDS papers, filed on 01/25/2002.

# Allowable Subject Matter

- 1. Claims 1-3 and 7-10, now respectively renumbered 1-7, are allowed.
- 2. The following is an examiner's statement of reasons for allowance:

The prior art, considered as a whole, neither teaches nor suggests the overall combination including a network for preliminary noise shaping of an input signal coupled to sampling means for producing an output signal with a lower transition rate, including a feedback loop. U.S. Patent 5,327,137 to Sheerer et al shows a noise shaping circuit with feedback, but doesn't apply it to recited modulator elements. U.S. Patent 6,151,613 to Khoini-Poorfard uses noise shaping stages with a delta sigma modulator, but lacks the claimed feedback loop.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick G. Wamsley whose telephone number is (703) 305-3504.

# Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The patent term adjustment to date is 0 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 0 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (http://pair.uspto.gov)
